

Dance Workshops Jacqueline shares her vibrant enthusiasm for graceful, flowing English dances with both beginners and experienced dancers. Her teaching reflects her travels in England and her research on 18th century social dance. Jacqueline is captivating to watch as she guides dancers through intricate patterns while simultaneously playing an entrancing piano accompaniment.

Music Workshop Peter will guide you through dance musicianship, interactive playing, phrasing, playing the tune for the dance, plus harmonizing and playing around within the music. The workshop will not focus on learning repertoire; written music to several tunes will be mailed to musicians (with registration confirmations) in order to give your fingers a head start! There will be **one formal workshop this weekend**, but much time to jam and practice with each other. Musicians are expected to be comfortable playing their instrument(s).

The Music!

Peter Barnes flute and woodwinds
Earl Gaddis violin and viola
Jacqueline Schwab piano

These three members of Bare Necessities are known nationwide for their unique, non-traditional presentation of English country dance music. They have been playing weekly country dances for thirty years, performing music primarily from the 17th and 18th centuries. In the course of concertizing and dance playing, they have become increasingly free in their improvisatory explorations of these beautiful melodies. The resulting sound is that of both chamber and folk music, yet extraordinarily inventive and playful with its delightful interweaving of harmonies and counter melodies.

All three of these Bare Necessities members record, perform, teach and tour throughout the US and abroad. They are widely respected as musicians and teachers who share their talents at prestigious dance and music events. Each is a pure delight to learn from.
